Dear Dr. Carver,

This is just a note to thank you for your fine presentation at the Spad Drivers Reunion this past Saturday evening. You told a great fellowship what it needed to hear and left us all with a feeling of accomplishment.

I for one hope your efforts back at the shop help to convince our government and the Air Force of our need for a follow on to the A-1. The need is evident, as we discussed. Unless, of course, someone can guarantee that special operations are a thing of the past and we have no more need for a jungle warfare capability. After nine years in the Pacific and the Far East, I would have a personal doubt of such an assurance.

Thanks again for your splendid offering.

Sincerely,
